MESSAGE FROM OUR MAIN SPONSOR

WELCOME TO

Rapid Project Development is proud and privileged to continue our support of the 2023 Aberdeen Christmas Classic. As a local independent steel fabrication and construction company, specializing in all types of agricultural buildings and associated works, it is a great pleasure to be involved in such an important and significant event in the agricultural calendar.

Our family business was originally founded by Paul Duxbury, joined by his sons, providing a turn-key solution for all construction projects.

The business is now headed by brothers, John-Paul and James Duxbury, who are in charge of all of the company's projects with John-Paul looking after design, planning, sales and steel fabrication and James overseeing site works, concrete and construction works.

Our aim is to provide client satisfaction and value for money, the essential requirements needed to continue the success and growth of the business.

Many farmers, customers and friends, will know of us, but for those who don't, we provide a one-stop solution for all agricultural building requirements, looking after everything and endeavouring to help with problem solving with our clients.

It also helps that our sister company RPD Scotland Ltd is involved in arable, livestock and renewables. This gives us a wealth of practical experience when it comes to advising on and providing buildings and services for our clients. The farm unit produces renewable energy which supplies electricity and heat for Rapid's fabrication facility.

Looking forward to this years Christmas Classic itself, we would like to thank ANM Group and all the entrants for their work and dedication in preparing for the event. Without this effort there would not be a Christmas Classic.

For those of you visiting, we hope you have an enjoyable time at Thainstone and we look forward to meeting and speaking with you over the two days.

John-Paul Duxbury
Managing Director

Harbro Limited

Harbro's Rumitech is making its mark in finishing diets by improving feed utilisation, feed efficiency and as a result, improving killing-out percentages. This unique additive works in several ways to increase feed efficiency by increasing the number of bugs in the rumen, reducing the amount of energy lost as methane and reducing the loss of protein as urea. This ultimately leads to better digestion and better retention of energy and protein. Rumitech is available exclusively from Harbro for use finishing diets through inclusion in Grampian Minerals, Champion concentrates or finishing compounds, Beefstock and Elitestock nuts.

Quality Meat Scotland (QMS) (Confirmed)

QMS is the public body responsible for promoting the UK GI labelled Scotch Beef and Scotch Lamb brands in the UK and abroad. QMS also helps the Scottish red meat sector improve its sustainability, efficiency and profitability and maximise its contribution to Scotland's economy. The quality assurance schemes run by QMS cover more than 90% of livestock farmed for red meat in Scotland. They offer consumers in the UK and overseas the legal guarantee that the meat they buy has come from animals that have spent their whole lives being raised to some of the world's strictest welfare standards. Scotland's beef, lamb and pork producers make an important contribution to the country's economic, social and environmental sustainability, contributing over £2 billion to the annual GDP of Scotland and supporting around 50,000 jobs (many in fragile rural areas) in the farming, agricultural supply and processing sectors. For more information visit www.qmscotland.co.uk or follow QMS on Facebook or Twitter
