Sire Verification and Scrapie status for Sale Sheep

- Council would recommend but have not made it mandatory that sale sheep are sire verified and Scrapie status reported.

- The Society can facilitate parentage testing and scrapie genotype results in the usual way by requesting a nasal swab kit from the office.
- Breeders can notify potential purchasers through the comments and notes in the catalogues that they have done this testing.
- The Society takes no responsibility for the accuracy of the testing and the results of the test, and the cost is borne by the vendor.
- This does not remove or replace the procedure for rams purchased at Society sales to be DNA tested. The sample is submitted to the office along with the Ram Proforma in order for the ram to be registered and named.

13. Outstanding Balances: Please note that the Society Council have approved that no sheep will be allowed access to any Society Sale if an outstanding balance exists with the Society.
